The Modified Plan for Designating Telephone Central Offices

(Effective with this Directory)

The plan in brief

Effective with the issuance of this directory, all central office designations in New York City have been modified by having an office numeral included with the name. For example, PRO spect is now PR ospect 9. In the future, as additional central offices are established in the same general neighborhood, they can be given the same name but with a different office numeral as PR ospect 7, PR ospect 8, etc. The introduction of the plan has not necessitated changes in telephone line numbers.

How calls should be placed

The Modified Plan involves only a slight change from the former method of calling from either dial or manual telephones. Calls from dial telephones should be made by dialing the first **TWO** letters of the name, the central office numeral and the line number instead of the first three letters and the line number as formerly.

For example, if a number now appears as **PR** ospct **9-5070,** *it should be dialed* **P-R-9—5-0-7-0.** *The inclusion of a numeral in the central office designation does not; therefore, require any more operations of the dial than the former method.*

In calling by voice, the number will be given thus—**Prospect 9----5–0—7–0.**
(pause)

Reason for the plan

Under the former plan of designating central offices, each office was given a separate name and as new central offices were established, new names had to be assigned to them. It was necessary that these names be easily read, easily spoken by telephone callers and sound quite unlike any of the several hundred other names used in and around New York City, so that they would not be confused with any of them. If this method were continued, the limit to the number of suitable names which could be found for central office use soon would have been reached.

Advantages of the plan

The Modified Plan overcomes the limitations of the former method. It assures an ample supply of satisfactory designations for the large number of central offices which must be added as the public in New York City requires more telephones. The new plan will make it unnecessary for telephone users to become familiar with a number of new central office names each year. It will permit instead a wider use of present names which as time goes on will become more and more identified with their particular neighborhoods.

Personal lists of telephone numbers

You will find it a convenience to use the list of modified designations shown on the following page, inserting in your personal list the numeral shown after each central office name, thereafter dialing or giving the number in the new way.

If you should wish to make inquiries at any time, any of our business offices will be glad to assist you.

NEW YORK TELEPHONE COMPANY

How to Call The Company on Service Matters

	From MANUAL Telephones	From DIAL Telephones
For numbers not listed in directories	Call—"Information"	Dial—411
To report telephone out of order .	Call—"Repair Service"	Dial—611
To report irregularities and obtain assistance on calls	Call—"Chief Operator"	Dial The Operator
For business transactions—orders for service, bill inquiries, etc. . . .	Call—"Business Office"	Dial—811

OUR AIM is to render a service that will be satisfactory to our customers. We realize that difficulties will sometimes occur despite our efforts to avoid them.

The procedure to be followed in reporting service difficulties is indicated above.

If, after any matter has been reported as provided above, an unsatisfactory condition continues, please call the *Manager* for your area, whose name and telephone number are shown on page 4.

During nights, Sundays and holidays, reports of such conditions, and also requests for the immediate restoration of telephone service, or for other similar matters, because of emergent conditions, may be made by asking the operator for Main 4-Official 71.

General Offices—81 Willoughby St., Brooklyn, N. Y.

NEW YORK TELEPHONE COMPANY

Copyright, 1930, by New York Telephone Company

To Transact Business By Telephone With the Company

To give orders for or to obtain information concerning service, changes in location, bills, directories, etc., just ask the operatot for "Business Office" or dial "811" and you will be connected with the office handling accounts for the district from which you are calling. When calling from a telephone outside of your district, call or dial the operator and ask for the number listed below.

If, after any matter has been taken up through the usual channels as indicated on page 3, an unsatisfactory condition continues, please call or dial the operator and give her the telephone number of the Manager for your area, as listed below.

These offices are open from 9:00 A. M. to 5:00 P. M. except Saturday when they close at noon. During nights, Sundays and holidays, requests for the immediate restoration of service, or for other similar matters, because of emergent conditions, may be made by asking the operator for Main 4-Official 71.

4602-13th Avenue, cor. 46th Street
89 Willoughby Street, cor. Bridge Street

DIRECTORIES

We earnestly desire to have telephone number informa-on available for your use in the form most satisfactory om your viewpoint but we wish to avoid furnishing more lephone directories than are needed as this not only sults in inconvenience to our customers but is wasteful s well. We aim to accomplish this through the provision attractive booklets for listing telephone numbers, through e distribution of borough telephone directories, and by eans of Information service.

The maximum of convenience is secured through the maintenance of up-to-date personal lists of telephone numbers which you have occasion to call. Under this plan, the lists can be kept immediately at hand and the majority of desired telephone numbers can be ascertained with the least difficulty.

In order to meet your requitements, we shall be glad to furnish you with attractive booklets for use in preparing personal lists of telephone numbers or with any borough directories desired upon application to any of our Business Offices listed on the opposite page.

HOW TO USE THE DIRECTORY

Sequence of Listings

A telephone directory listing is regarded as consisting of seven parts which are considered in the following order in determining alphabetical precedence:

1. Surname (or proper name).
2. First given name or initial (or equivalent of either).
3. Second given name or initial (and other given name, if any).
4. Title (if any).
5. Designation (if any).
6. Street name (or equivalent).
7. Building number.

Abbreviations

Such abbreviations as Chas., Co., Geo., Jas., St. (Saint), Wm., etc., are placed in the same alphabetical sequence as though spelled out in full.

The Symbol "&"

The symbol "&" is disregarded and does not affect the order of listings. Thus "Allen & Co." would appear before "Allen, Geo. A."

Names Which Include the Apostrophe

Names including the apostrophe "s" ('s) are listed as though the apostrophe were not shown. For example, "Brook's Bakery" would appear before "Brooks, C. D."

Hyphenated Names

Hyphenated surnames are arranged alphabetically under the first surname, the hyphen being disregarded. For example, the listing "Allen-Harper Co." would appear after "Allen, George A."

Names Beginning With "M", "Mac" and "Mc"

Names beginning with "M," "Mac" and "Mc" are placed in alphabetical position as spelled, the surname, including "M," "Mac" or "Mc" being treated as one word.

Names With Prefixes

Names which are compounded with prefixes, such as D', De', Fitz, L', O', St. (Saint) and other similar prefixes, are treated as one word; the apostrophe, the hyphen, the space or capitalization, if any, being disregarded in determining the precedence of listings.

Initials Used as Names

Initials where used instead of given names precede the given names beginning with the same letter, thus the listing "Aaron J." would precede the listing "Aaron John."

Numerals Used as Names

Names made up of or containing numerals are listed as spelled out in full. For example, "2550 Broadway Corp." would appear as "Two thousand five hundred fifty Broadway Corp."

Same Names Spelled as Two or More Words

Names which are known to be locally spelled as both one or more words are treated as one word in determining the precedence of listings. In such cases a cross reference is placed where the listing would appear if treated as two words. For example, "New Castle," see "Newcastle."

Single Letters Used as Names

Single letters used as names appear at the beginning of letters, i.e. "A. Z. Society" would appear at the beginning of the "A" listings.

Examples

The following will illustrate the general order of listings in this directory

A Z Society 60 John .... DI ckns 2-2691

Business Designations

The purpose of a business designation in connection with a directory listing is to identify the subscriber and not to advertise his business. A general characterization is, therefore, considered sufficient. Such designations appear in the directory in abbreviated form and in cases where listings do not denote business service, the symbol "b" is included to distinguish them from residence listings.

Listings of Apartment Houses

Apartment houses generally known by given names are listed alphabetically under these names. Apartment houses generally known by street addresses, for example, "123 Ocean Avenue," are listed in this directory under "Apartments and Apartment Houses."

WINTER
1930-31

HOW TO MAKE OUT-OF-TOWN CALLS

Manual and Dial Telephones

You may use either the station-to-station service to Out-of-Town points or the person-to-person service at a somewhat higher rate, as outlined below.

STATION-TO-STATION CALLS

Call or dial the operator and give her the name of the city and the telephone number you want to reach. IF YOU DO NOT KNOW THE NUMBER, CALL INFORMATION (or dial 411.)

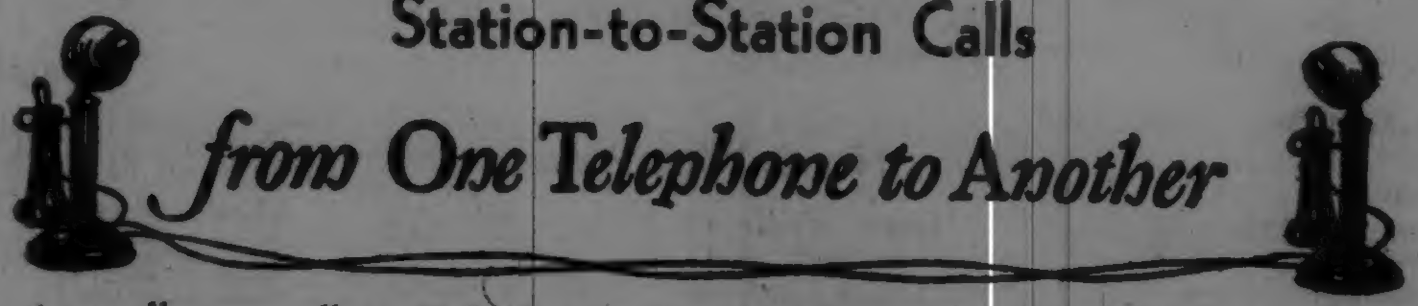
PERSON-TO-PERSON CALLS

Call Long Distance (or dial 211) and give the details of the call to the operator.

Faster service will be obtained on person-to-person calls if you give the telephone number.

Make a note of telephone numbers for future reference.

Station-to-Station Calls



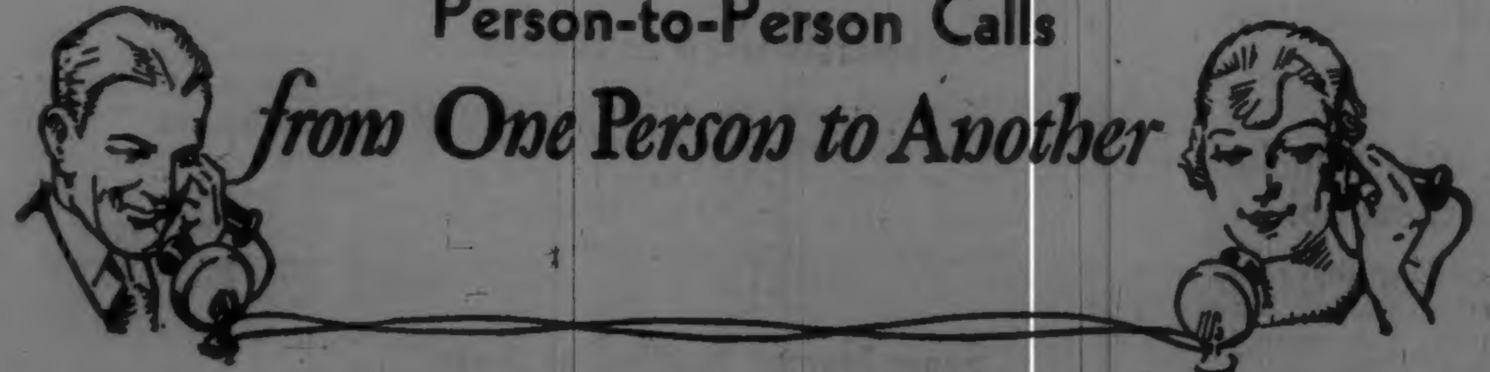
from One Telephone to Another

Station-to-station calls are calls on which you do not ask the operator for any particular person or particular Private Branch Exchange station, for example a call for "Philadelphia, Walnut 1234" on which you will talk with anyone who answers.

Station-to-station calls are handled more rapidly and at lower rates than person-to-person calls. Reduced rates, generally, are in effect during evening and night periods. See "Evening and Night Reduced Rates" on Page 7.

Charge is made if anyone at the called station answers, and is computed from the time that connection is completed between the calling and the called station. There is no report charge, except on collect calls. See "Report Charges" on Page 7.

Person-to-Person Calls



from One Person to Another

Person-to-person calls are calls on which you ask the operator to call a particular person to the telephone or to reach a particular Private Branch Exchange extension station.

For example, a call for "Mr. Paul Smith at Boston, Hubbard 3340" or for "Mr. John J. Warren, 463 16th Street, Denver, Col." or for "Baltimore, Madison 2000, extension 41."

The rates are somewhat higher than station-to-station rates but no charge other than a report charge is made unless the desired person or extension station is reached. There is no reduction during evening and night hours. See table at the bottom of page 12.

Charge is computed from the time that conversation starts with the particular person or with some one at the designated extension station.

HOW TO MAKE OUT-OF-TOWN CALLS (continued)

Rates

For rates to Suburban Points, see page 10.

Rates to certain other out-of-town points are shown on page 9. If the rate for the point desired is not shown on page 9, it may be obtained from the Long Distance Operator.

Evening and Night Reduced Rates

These rates DO NOT apply to person-to-person calls.

On station-to-station calls where the station-to-station day rate is more than 35c, Evening Rates are in effect between 7:00 PM and 8:30 PM, and Night Rates between 8:30 PM and 4:30 AM. See table at the bottom of page 12. Reduced rates do not apply on calls to Cuba, Mexico, South America or on Transoceanic Calls.

Appointment Calls

A definite time for conversation may be specified in placing a person-to-person call. Such calls are known as "Appointment Calls." The Company cannot guarantee completion of the connection at the exact time specified. The rate for this class of service is higher than the station-to-station day rate. See table at the bottom of page 12.

Messenger Calls

Person-to-person calls may be made for an individual not having telephone service. In placing the call ask to have a messenger sent for the called party. Such calls are known as "Messenger Calls."

The rate for this class of service is higher than the station-to-station day rate. See table at the bottom of page 12. The charge made by the messenger is added to the Company's charge for the call.

Report Charges

A limited charge, known as a "Report Charge," may apply to uncompleted person-to-person, appointment and messenger calls, and on calls on which charges are reversed. See table at the bottom of page 12. This charge is to compensate partially for the operating and the use of the Toll lines in the effort to complete the call. In no case will a report charge be made on a call in addition to a message charge. No report charge will be made if failure to establish the connection is due to "Busy," "Don't Answer," "Out of Order" or similar condition at the called station.

International Telephone Service

Transoceanic telephone service is available from your telephone to any point in Austria, Belgium, Czecho-Slovakia, England, Germany, Holland, Scotland, Spain, Switzerland, and Wales; to most cities in France and to many important cities of other European countries. Telephone service is, also, available to any point in Canada and Cuba; and to many of the important cities of Mexico, South America and Australia. Calls may be placed to these points, or rates and other information secured by calling "Long Distance" or dialing 211.

The following are rates for an initial period of three minutes to representative points:

London	$30.00
Paris	33.75
Berlin	35.25
Rome	36.00
Madrid	36.00
Vienna	36.00
Copenhagen	36.75
Stockholm*	36.75
Warsaw	37.50
Buenos Aires	30.00

Ship-to-Shore Telephone Service

Telephone service is available to certain of the larger steamships while the vessels are at sea and within calling range. Calls may be made to these vessels or further information obtained regarding rates and periods during which the service is available, by calling Long Distance (or dialing 211) and asking for the "Ship-to-Shore Operator."

The rate for this service is $21.00 for an initial period of three minutes and service is now available to the following ships:

Homeric
Leviathan
Majestic
Olympic

Collect Calls (Charges Reversed)

Upon request of the calling party the charges on all person-to-person calls (including report charges) and on certain station-to-station calls (as explained below) will be collected at the called station if such charges are accepted. Requests to have the charges collected in this way should be made at the time the call is given to the operator. If the call is not completed because of the failure of the called party to accept the charges, a report charge will be made against the calling party.

Charges may be reversed on station-to-station calls where the rate is 20c or more. The regular station-to-station (day, evening or night) rates apply, except that the rate for a reversed 20c station-to-station day call is 25c.

If request is made to reverse the charges on station-to-station calls where the rate is less than 20c, the calls are classed as person-to-person calls and are handled accordingly.

The reversal of charges is not permitted on calls to points in Mexico, South America or on Transoceanic Calls.

How To Make Emergency Calls

Police--Fire--Ambulance

Call or dial the operator and say: "I want a Policeman"—"I want to report a fire"—"I want an ambulance." No charge is made for such emergency calls.

If you have to leave the telephone before the desired station answers, tell the operator where help is required.

From dial telephones, Police and Fire Departments may also be reached by dialing directly the number shown on the right. Police Department numbers should be dialed in case an ambulance is wanted.

HOW TO DETERMINE THE CHARGE FOR CALLS BETWEEN POINTS WITHIN NEW YORK CITY

If you are calling from the Bronx, Manhattan, Queens or Richmond (Staten Island), consult the Directory for that Borough.

1st Find out in what zone the telephone from which you are calling and in what zone the telephone which you desire to call are located by consulting Table C on page 12.

2nd Determine the charge which will apply by consulting the tables below, Table A for message rate subscribers and Table B for flat rate subscribers and coin telephones.

NOTE—Subscribers calling from dial telephones should dial direct those calls within their local calling area if flat rate service is furnished. If the call is from a coin telephone or a message rate telephone, the number should be dialed if the charge is 5c or one local message.

TABLE A—Message Rate Telephones

CALLS FROM ZONE	TO ZONE	ARE CHARGED AS
6	1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12, 13	1 local message
	5, 14, 15	2 local messages
7	1, 6, 7, 8, 10, 12, 13	1 local message
	2, 3, 4, 9, 11, 14, 15	2 local messages
	5	3 local messages
8	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	1 local message
	13, 14	2 local messages
	15	3 local messages
10	1, 2, 6, 7, 8, 9, 10, 11, 12, 13	1 local message
	3, 4, 5	2 local messages
	14, 15	3 local messages

All charges shown above are for the initial five minutes of conversation. The charges for conversations of greater length are as follows:

INITIAL PERIOD CHARGE	OVERTIME CHARGE
2 local messages	1 local message for each additional 3 minutes or fraction thereof.
3 local messages	1 local message for each additional 2 minutes or fraction thereof.

TABLE B—Flat Rate, Coin Box and Non-Coin Public Telephones

Note—Calls from flat rate telephones to points outside their local calling areas are charged for at the rate of 5c for each New York City inter-zone message unit indicated in the table below:

CALLS FROM	TO	FROM FLAT RATE TELEPHONES ARE CHARGED AS	FROM COIN BOX AND NON-COIN PUBLIC TELEPHONES ARE CHARGED AS

*Evening and night reduced rates do not apply between May 25th and September 10th inclusive, to certain season resorts in New York State. (See table on page 9).

In cases not covered by the above table where the Station-to-Station Day Rate is over $1.00, Evening Rates, Night Rates, Person-to-Person Rates etc., can be obtained from the Long Distance Operator.

Station-to-Station Rates of 25c or less are for a five minute initial period. All other Station-to-Station Rates and all Person-to-Person Rates are for a three minute initial period.

HOW TO USE THE DIAL TELEPHONE

Points to which calls should be dialed direct in the manner described below may be found on page 11. To place calls to other points, dial the operator and give her the number. Directions for placing out-of-town calls are given on page 6.

Obtain Correct Telephone Number

Obtain the telephone number from the latest issue of the telephone directory. If you cannot find the desired number in the directory, obtain it from "Information" by dialing 411. There is no charge for calls to "Information."

Remove the Receiver

Remove the receiver from the hook carefully. If you jiggle the hook you may get a wrong number.

Listen for the "Dial Tone"

The *Dial Tone* is a steady humming sound, which indicates that the line is ready for you to dial. DO NOT start to dial until you hear it. If you do not hear the dial tone, hang up the receiver and try again a little later. After hearing the dial tone, keep the receiver off the hook until you have finished with the call.

In case no dial tone can be obtained after repeated trials, report the condition to "repair service," using another telephone.

What to Dial

You will notice that in the Directory the telephone numbers are shown with the first two letters of the central office name capitalized and with a central office numeral following the name. Dial the two capitalized letters, the central office numeral, then the figures in the number and the party line letter, if there is one.

How to Dial

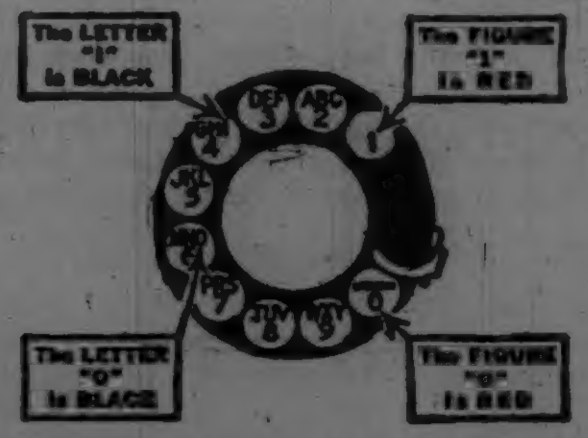
Suppose, for example, you are calling PR ospect 9-5070.

Place your finger in the finger hole over the letter "P" and pull the dial around until your finger strikes the finger stop. Raise the finger and allow the dial to turn back. Do not touch it while it is turning back.

Repeat the process for the letter "R" and then for the central office numeral "9." **Dial only the first two letters and the office numeral of the central office designation.** Dialing additional letters or the entire name will give a wrong number. Proceed at once to dial the four

Ready to dial "7"

The dial pulled around to finger stop



figures of the number; namely, the figure "5," the figure "0" (in red), the figure "7," and the figure "0" (in red).

If the number is followed by a letter, dial the letter in the same manner.

Remember that on the dial, letters are black and figures are red. Do not confuse the black letter "O" with the red figure "0" or the black letter "I" with the red figure "1."

If before you complete dialing you find that you have made an error, or if your finger slips out of the finger hole while dialing, hang up the receiver for a few seconds, then remove the receiver, listen for the dial tone, and, after hearing it, dial the complete number again.

Signals for Which to Listen

Within a few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-rr-ing sound, or the busy signal, a rapid buzz-buzz-buzz. If you hear an interrupted buzzing sound, as buzz-buzz——buzz-buzz, it indicates that you have dialed the central office designation incorrectly. Hang up the receiver, wait a few seconds, and make another attempt, being careful to dial the central office designation correctly.

If you do not hear any signal within half a minute, hang up the receiver, wait a few seconds and make another attempt.

Note: When you are through with the call, hang up the receiver for a few seconds before dialing another number.

To Dial Operator (Assistance Calls)

If you wish to report a service irregularity or in case you have trouble in dialing a call, you can reach the operator by placing your finger in the last finger hole marked "Operator" and pulling the dial around once to the finger stop. Then release the dial and the operator will answer.

Uncompleted Calls

When, for any reason, you do not obtain a connection (for example, the called line is busy or does not answer, or you do not hear the ringing signal) you will usually get quicker service if you try the call again yourself at intervals, instead of immediately calling the operator for assistance. No charge is made unless you obtain an answer from a subscriber's telephone.

Party Line Subscribers

Before starting to dial always make sure that the line is not in use. If you do not hear the dial tone, inquire if the line is being held by some other person. If no response is received, hang up the receiver for a few seconds and make another attempt.

Listen on the line while dialing and if you hear another party come in on the line or hear successive clicks in the receiver, it indicates that some one else on your line is trying to call. Inform him that the line is in use and request him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and then remove it and dial the complete number again.

To call another party on your line, dial the operator, give her the number you wish to call, state that it is the number of another party on your line and give her your number.

To Call an Extension Station Connected With Your Line

Dial the operator, give her your number and ask her to ring the extension station connected with your line.

WINTER
1930-31

HOW TO USE THE MANUAL TELEPHONE

Directions for placing Out-of-Town calls are given on Page 6.

Obtain Correct Telephone Number

Obtain the telephone number from the latest issue of the telephone directory. If you cannot find the number in the directory, obtain it from "Information." There is no charge for calls to "Information."

How to Place Calls

Give the number to the operator in the following manner:

CA nal 6-0027 say "Canal six (pause), oh-oh—two-seven."
JO hn 4-1253 say "John four (pause), one-two—five-three."
MA in 4-2125-J say "Main four (pause), two-one—two-five-J."
HA nover 2-4800 say "Hanover two (pause), four-eight—hundred."
WO rth 2-5000 say "Worth two (pause), five-thousand."
SO uth 8-10267 say "South eight (pause), one-oh-two—six-seven."

If you should hear the operator pass your call to another operator incorrectly, say "No" and give the number again.

If you are calling from a party line message rate station, announce the letter of your station, if there is one, after giving the number as above. Example, "Worth two (pause), five thousand, this is "J" calling."

Ringing and Busy Signals

In a short time you should, in most cases, hear either the ringing signal, an intermittent bur-rr-ing sound accompanying the ringing of the bell, or the busy signal, a rapid buzz-buzz-buzz (quicker and louder than the ringing signal). If you hear the busy signal, just hang up your receiver without waiting for a report from the operator. If you hear the ringing signal, give the called party sufficient time to answer, before abandoning the call. Make the call again a little later, if the connection is still desired.

There will be no charge unless an answer is obtained from a subscriber's telephone.

Where these audible signals are not provided, reports will be given by the operator.

Other clicking sounds or tones may occasionally be heard. Such sounds, however, are incidental to the operator's work and should be disregarded.

To Call Back the Operator

When it is necessary to call back the operator, move the receiver hook up and down *slowly* three or four times.

Moving the receiver hook causes a light to flash on the operator's switchboard. If you jiggle the hook rapidly, the light will not burn long enough to attract the operator's attention.

HOW TO USE THE DIAL COIN TELEPHONE

Remove Receiver from Hook, Deposit Nickel and Listen for Dial Tone--a Humming Sound

This operation must precede every attempt to make a call whether local, out-of-town or assistance call.

Where the Charge for Your Call is Five Cents

Dial the first two letters of the central office name, the central office numeral and then the number, in the same way as at a subscriber's telephone (See Page 13). Central office districts to which calls may be dialed are indicated on page 11.

Failure to Receive Connection

Within a few seconds after you have completed dialing you should hear the ringing signal, an intermittent burr-rr-ing sound, or the busy signal, a rapid buzz-buzz-buzz. If you do not hear either signal, within half a minute, hang up the receiver and your coin will be returned. After waiting for a few seconds remove the receiver—deposit a nickel—listen for dial tone—and dial the number again.

When for any reason you do not obtain a connection (for example, the called line is busy or does not answer or you do not hear the ringing signal) you will usually get quicker service if you try to call again yourself at intervals instead of immediately calling the operator for assistance. Your coin will be returned after you hang up your receiver.

IF YOU MAKE A MISTAKE WHILE DIALING, hang up the receiver at once. Your coin will then be returned. Wait a few seconds, then dial the number again.

To Obtain Assistance from the Operator

In case you have trouble in dialing a call you can reach the operator by using the opening in the dial, outside of which appears the word "Operator." The operator may be recalled by moving the receiver hook up and down slowly. On other calls, however, moving the receiver hook would result in a disconnection.

Information Calls

To call Information, dial the figures 411. Coin will be returned.

Other New York City Calls

To place calls to points to which the charge is 10c or 15c dial the operator and give her the number.

HOW TO USE THE DIAL COIN TELEPHONE (continued)

Out-of-Town Calls by Number

Dial the operator and give her the name of the city, state and telephone number.

Out-of-Town Calls to a Particular Person

Dial 211 and give the details of the call to the operator who answers.

Telegrams

Dial the operator and give her the name of the desired telegraph company.

Emergency Calls (Police, Fire, Ambulance)

Dial the operator, give her your number and say—

"I want a policeman."
"I want to report a fire."
"I want an ambulance."
} Coin will be returned

If compelled to leave telephone before desired station answers, tell the operator where help is required.

You may also reach Police or Fire Departments directly by dialing numbers shown on page 7.

Calls to the Telephone Company

	Dial
Repair Service	611
Business Office	811

Your coin will be returned.

GENERAL INFORMATION

Applications for New Service—Changes in Location, Etc.

All matters relating to new telephone service, removals, termination of service, directory listings, directory advertising, adjustment of accounts, collection of bills, etc., are handled at the Business Offices of the Company (See Page 4).

On account of the time needed for moving telephone equipment from one location to another, notice should be given at least ten (10) days prior to the time the change is desired. A large number of such orders are received about May 1st and October 1st each year. Ample advance notice (30 days if possible) is therefore requested in order to enable us to make the change with the least possible interruption to your service.

Criticisms of Service

Operators are required to be courteous in their dealings with customers but are not expected to engage in conversation beyond that necessary to complete connections.

The Company values the prompt reporting of operating difficulties. This may be facilitated by asking the operator for "Chief Operator," using another telephone if necessary.

Bills for Service

Bills are rendered monthly. Local service charges are for a period of one month in advance of date of bill; out-of-town calls and additional local messages are for the calendar months preceding date of bill. Bills are due when rendered.

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Postal Telegraph-Cable Company or the Western Union Telegraph Company. The telegraph charges will appear on your monthly telephone bill.

You may also telephone your telegrams from public and semi-public coin box telephones and deposit the charges for such messages in the coin box.

When calling either of these telegraph companies follow the instructions shown under its listing in this directory.

Overtime Charges

Although it is not the Company's general practice to time all calls from message rate telephones, on which the initial period charge is one local message, overtime charges will be applied wherever such calls are found materially to exceed five minutes in duration.

Time-of-Day Information

To obtain the correct time Call or Dial ME ridian 7-1212. This information is available at any time of the day or night and is provided as an accommodation at a small charge as follows:

One local message will be charged message rate subscribers.

Five cents will be charged flat rate subscribers and coin box and public telephone users.

(Continued on following page)

Suspension of Residence Service

When a residence is to be closed for any considerable period, the telephone service may be temporarily suspended without termination or removal of telephone instruments, and under certain conditions, if arranged for in advance, a partial allowance will be made for a period not exceeding six months in any calendar year. This suspended service does not apply to business telephones.

Telephotographs

(Pictures by Wire)

Telephotograph stations for the transmission and receiving of pictures and printed or typewritten subject matter are available in:

New York
Boston
Chicago
St. Louis
Cleveland
Atlanta
Los Angeles
San Francisco

For hours of operation and charges, call or dial EX change 3-9800 and ask for extension 1212.

Changes in Directory Listings

This telephone directory is issued regularly twice a year. Notification as to new listings, changes or corrections should be made to the Business Office promptly.

WINTER
1930-31

GENERAL INFORMATION (continued)

Errors in Directories

Every effort is made to make the directory as accurate as possible. Sometimes despite the care and attention given it, errors will creep in. Please check your listing and if it is incorrect, call the Business Office promptly.

The Company assumes no liability for damages arising from errors or omissions in the making up or printing of its directories, except in the case of charge listings in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues.

Identification of Employees

Every employee of the Telephone Company authorized to inspect, repair or remove the Company's apparatus carries a metal badge showing the Company's name and his own number. Subscribers are earnestly requested to refuse access to their premises to anyone who cannot in this way identify himself.

Free Calls

Calls from any telephone in New York City may be made to any department of the Telephone Company in the City and Suburban area without charge, excepting calls to the Time-of-Day Information Department, ME ridian 7-1212.

On all free calls made from coin box stations, the coin deposited in order to call the operator will be returned.

Exhibiting Telephone Numbers

If you display your telephone number on stationery, vehicles, or in other ways, it is important that it be kept currently correct. Changes may become necessary from time to time, and failure to make corrections may affect your service as well as the service of those who desire to call you.

Attachments

The Company's tariff provides that no apparatus or appliance not furnished by the Company shall be attached to or used in connection with its facilities. Telephone instruments are designed to produce the best results. Many of the unauthorized devices offered for sale, which are claimed to improve the service, get the telephone lines and instruments out of order and, to protect its service, the Company will be compelled to remove any such device. Where ordinary apparatus does not adequately meet a particular set of conditions, special equipment will be furnished by the Company at reasonable rates.

Telephone directories containing the listings of subscribers within a specified area issued from time to time by the Company are and remain the property of the Company. They shall not be mutilated and shall be surrendered to the carrier who delivers the subsequent issue. No foreign or privately owned binder, holder or auxiliary cover bearing advertisements shall be used in connection with any telephone directory furnished by the Company.

Classified Telephone Directory

The Classified Telephone Directory contains the name of every business subscriber listed under a classified heading which is descriptive of his business. This directory serves as a buyer's guide and also as a telephone number finding list.

If you wish to purchase an article or service, look for the heading descriptive of the article or service you have in mind. For example, if you want a battery, look for the heading "Batteries" and from the list of dealers and advertisements select the one with whom you wish to do business. If you desire to have your carpets cleaned, look for the heading "Carpet Cleaners" and select the one you want from the associated listings and advertisements.

You will also find the names of well known trade-mark products listed in the Classified Telephone Directory in their proper alphabetical order among the classified headings. For example, if you want to buy a Ford Motor Car, turn to the heading "Ford Authorized Sales and Service" and you will find an illustration of the trade mark and a brief description of the product, together with a list of the authorized dealers handling this particular article.

If you are looking for the telephone number of a person or firm and you know the profession or business, you can find it more easily in the Classified Telephone Directory than in the Alphabetical as you will have a much shorter list to consult. For example, if you want the telephone number of Dr. John Jones, your physician, you will find him quickly by referring to the heading, Physicians and Surgeons, M.D., likewise your grocer, cleaner and many other business or professional people can be found very easily by name in the Classified Telephone Directory under their respective headings.

Injuring Telephone Property

A person who wilfully or maliciously displaces, removes, injures, or destroys: a line of telegraph or telephone, wire or cable, pier or abutment, or the material or property belonging thereto, without lawful authority, or who shall unlawfully and wilfully cut, break, tap, or make connection with any telegraph or telephone line, wire, cable or instrument, or read or copy in any unauthorized manner any message, communication or report passing over it, in this state; or who shall wilfully prevent, obstruct or delay, by any means or contrivance whatsoever the sending, transmission, conveyance or delivery, in this state of any authorized message, communication or report by or through any telegraph or telephone line, wire or cable, under the control of any telegraph or telephone company doing business in this state; or who shall aid, agree with, employ or conspire with any person or persons to unlawfully do, or permit or cause to be done, any of the acts hereinbefore mentioned, or who shall occupy, use a line, or shall knowingly permit another to occupy, use a line, a room, table, establishment or apparatus to unlawfully do or cause to be done any of the acts hereinbefore mentioned, * * * is punishable by imprisonment for not more than two years. —Extract from Section 1423 of the Penal Law.

Privacy of Telephone Service

A person who wrongfully obtains, or attempts to obtain, any knowledge of a telegraphic or telephonic message by connivance with a clerk, operator, messenger or other employee of a telegraph or telephone company, or being such clerk, operator, messenger or other employee, wilfully divulges to anyone but the persons for whom it was intended, the contents or the nature thereof of a telegraphic or telephonic message or dispatch intrusted to him for the transmission or delivery, or of which contents he may in any manner become possessed, * * * is punishable by a fine of not more than one thousand dollars or by imprisonment for not more than two years, or by both such fine and imprisonment.

Extract from Section 552 of the Penal Law, Chapter 40 of the Consolidated Laws.
